

# Believing In Achieving

## PreK Coordinator's Institute

This year's Institute will highlight Dr. Jennifer Grisham-Brown's presentation on "**Embedded Instruction in the Inclusive PreK Classroom**". There will also be updates on the state's **ABCD** project by Dr. Marian Earls. State staff will also provide PreK Coordinators with updated data displays for Indicators 6 (Inclusion) with group discussions about program improvement for increasing inclusion. Participants are encouraged to visit the website:

<http://nceln.fpg.unc.edu/events/preschool-coordinator-institute>.

At this website, the participants will be able to download content discussed during the presentations, with the exception of the LEA data displays. Participants will be given their personalized data during the session as well as copies of the new **NC Foundations: Early Learning and Development Standards**.
