Spotlight on First in Families of North Carolina

First In Families of North Carolina has been supporting individuals and their families to meet self-defined opportunities of health throughout North Carolina since 1995.

Mission
We are a catalyst for families in North Carolina to meet their self-determined needs by leveraging relationships and resources, and encouraging reciprocity in their communities.

Vision
Individuals and families will have the wellness resource required to believe in their dreams, achieve their goals, connect in their communities and give back to others.

We support individuals and families in a variety of ways, including to:

- meet current goals and plan for the future,
- acquire needed goods and services, and
- find opportunities to give back to others.

Direct Family Support
We oversee fourteen regional First In Families Chapters across NC. The First In Families local Chapters offer support to families and individuals according to their self-defined needs. Examples of supports include computers, home furnishings or modifications, childcare or respite, or repairs to vehicles. Support can also be the connecting of an individual to vocational, social, and educational opportunities in the community; whatever it takes - for people to live and participate fully in their community. Find your local chapter by visiting: http://fifnc.org/programs/local.html.
