

Save the Date: Temple Grandin at the STEM Career Showcase for Students with Disabilities

Please save the date for the annual STEM Career Showcase for Students with Disabilities. Attendees will hear from world-famous scientist Temple Grandin on Tuesday, November 14, at the North Carolina Museum of Natural Sciences.

If you signed up last year, you'll remember that Dr. Grandin was unable to speak due to a scheduling conflict. But she's worth the wait! The highly regarded expert in the field of animal behavior will speak about her research and her experiences with autism.

Students will also meet role models with disabilities who have thriving careers in STEM fields at this educational event. Registration will open in mid-August. The event is free, but you must pre-register and show a ticket at the door.

Event Details

STEM Career Showcase for Students with Disabilities
Tuesday, November 14
10 a.m. to 1 p.m.
North Carolina Museum of Natural Sciences
